

Re: Docket# 98N-1038, "Irradiation in the Production, Processing,
and Handling of Food."

I want the FDA to continue prominent labeling of food that has
been treated with irradiation. The label should be conspicuous and
include the logo for irradiation. 2642 *Stuart H. Berman*

Additional comments: For the FDA (D.O.A.) to retain confidence
and respect important issues like this need to be decided
in favor of full disclosure, consumer concern & interest must
take priority over corporate interests
